

HTML

2022

Visual Code

! + tab + enter creates an empty HTML block.

Comments

```
<!--comment -->
```

```
/* comment */
```

Tags

```
<p>
```

```
<div>
```

```
<body>
```

```
<header>
```

```
<footer>
```

```
<span>
```

```
<form></form>
```

Then, inside the <form>

```
<input type="text" placeholder="something" />
```

```
<button></button>
```

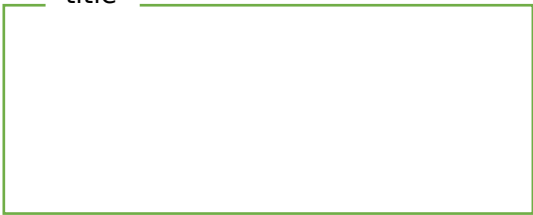

Fieldset

Inside a <form>:

```
<fieldset>
```

```
    <legend>title</legend>
```

title

List

```
<input list="mylist" type="text">
```

```
    <datalist id="mylist">
```

```
        <option value="selection1">
```

```
        <option value="selection2">
```

```
    </datalist>
```

```
</input>
```

Color picker

```
<input type="color">
```

Time picker

```
<input type="time">
```

Progress bar

```
<progress>
    value="30"
    max="100"
</progress>
```

Template

```
<template>

</template>
```

The content of the template does not appear on the screen unless it is activated by Javascript code, like this:

```
const template = document.querySelector('template');
const content = template.content.cloneNode(true);
document.body.append(content);
```

meta html elements

og stands for *open graph* and it is used for previewing a page as a card on Facebook, Twitter, etc.

```
<meta property="og:site-name" content="YouTube">
<meta property="og:url" content="https:...">
<meta property="og:title" content="My title">
<meta property="og:image" content="">
<meta property="og:width" content="">
<meta property="og:height" content="">
<meta property="og:description" content="">
```
